To The Human Resources Directorate
Mekdela Amba University
Ethiopia

Subject: Application for a Computer Science Position

Dear Sir/Madam,

I am writing to apply for a suitable position in the field of Computer Science at Mekdela Amba University. I hold a Master of Science in Computer Science from Woldia University (CGPA 3.93, thesis grade "Very Good") and a Bachelor of Science in Computer Science from the same university (CGPA 3.75/4.00).

My master's thesis, "Event Extraction from Unstructured Ge'ez Text Using the Hybrid Afro-XLM-R + BiLSTM + CRF Model," gave me hands-on research experience in natural language processing, deep learning, and the application of machine learning to under-resourced languages. The work covered dataset preparation, BIO-based annotation, model training and evaluation, error analysis, and the presentation of findings, all of which I can bring to teaching and research.

Beyond my academic training, I have completed Cisco training in networking and maintenance, which supports my skills in computer networks, hardware and software troubleshooting, and ICT support. I am also proficient with common office and analysis tools, including Python, React, Node.js, and SPSS.

I would like to contribute my academic knowledge, research experience, and technical skills to the teaching, research, or ICT support activities of Mekdela Amba University, according to the needs of the advertised position. I would welcome the opportunity to discuss how my qualifications can serve the university.

Thank you for considering my application. I look forward to hearing from you.

Sincerely,

Eyassu Bishaw Zegeye

Enclosure: Curriculum Vitae

Eyassu Bishaw Zegeye

Computer Scientist | Natural Language Processing | ICT & Networking
North Wollo, Ethiopia | +251 929 274 202 | bishaweyassu@gmail.com

PROFESSIONAL SUMMARY

Computer Science graduate (M.Sc., CGPA 3.93) with research experience in natural language processing and deep learning for the Ge'ez language. Skilled in Python programming, software development, computer networking, and ICT troubleshooting, with leadership experience from university student governance. Seeking a role in computer science teaching, research, software development, or ICT services.

EDUCATION

Master of Science in Computer Science Graduated 5 October 2026
Woldia University, Ethiopia

- CGPA: 3.93; thesis result: Very Good
- Thesis: *Event Extraction from Unstructured Ge'ez Text Using the Hybrid Afro-XLM-R + BiLSTM + CRF Model*

Bachelor of Science in Computer Science
Woldia University, Ethiopia

- CGPA: 3.75/4.00
- National exit examination score: 62% (2015 E.C. / 2022–23)

RESEARCH EXPERIENCE

Master's Thesis Researcher Woldia University

- Designed and evaluated a hybrid deep learning model (Afro-XLM-R, BiLSTM, CRF) for event extraction from unstructured Ge'ez text.
- Prepared and preprocessed text data and annotated it using the BIO scheme for event component extraction.
- Trained and evaluated sequence-labeling models and carried out error analysis.
- Wrote up and presented research findings.

TECHNICAL SKILLS

Programming & Development: Python, React, Node.js, software development fundamentals

AI & Research: Natural language processing, deep learning, sequence labeling, model evaluation, text preprocessing, SPSS

Networking & ICT Support: Cisco networking and maintenance, network installation and troubleshooting, hardware and software troubleshooting, cybersecurity fundamentals

Systems & Applications: Microsoft Windows, Linux, Microsoft Word, Excel, PowerPoint, Access
